PROFILE

Hello, My name is Riaj Hossain and I'm a full-stack PHP/Laravel developer. I am 22 years old. I have just completed my Higher Secondary School Degree. In 2020 I was worried about my future then I decided to do freelance and start learning Web development from youtube. Since 2021 I have worked with 5-6 local clients on 30+ projects. My recent and active projects are RetouchPilot.com, AlbumCover.art, and BekarsWorld.com I have created everything myself on those websites. I'm honest and introvert. Now, I wish to work with you and support my family. I know I don't have the expertise you want. So give me less salary. I'm excited to learn new things as well. I am ready to work hard as per your instruction.
